III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

Arden Courts of Livonia is situated on 4 ½ acres in a suburban residential area in Livonia, MI about 20 miles west of downtown Detroit, MI and is close to freeways I-696, I-96, and I-275 as well as libraries, shopping areas, and restaurants.

Arden Courts of Livonia is a single story facility, built in 1999, and has a licensed bed capacity of 60. The facility design was created specifically for individuals with Alzheimer's and/or dementia related issues. The facility design features one circular core area for ambulation and a color coded/theme orientating houses (Boat House, Garden Path, Cottage Place, and Country Lane) accessible from the core area. Each of the four houses accommodates 15 residents and has a dining room, living room, kitchen/pantry area, and laundry room. The facility is secure and a code is required to enter and exit the home. An enclosed outdoor courtyard with walking paths is provided for the residents to safely wander and to enjoy the outdoors. The facility is barrier free, has through wall gas fired heating with individual electric air conditioning throughout the facility. Each room in the facility has individual controls for the heating and cooling units. The facility has central gas-fired furnaces with electric furnaces and electric air conditioning to service common areas. The entire building is fire suppressed. On 12/22/2008, the Bureau of Fire Services (BFS) gave an approval of the fire safety system in this facility. Arden Courts of Livonia is a non smoking facility. The facility has public water and sewage disposal.

In August 1999, Jeffrey L. McManus, P.E., from the Department of Community Health (DCH)/Health Facilities Engineering section measured all of the residents' bedrooms, common areas, and living spaces. All of the bedrooms, common areas, and living spaces were found to comply with HFA (Home for the Aged) administrative rules and Public Act 368, as amended. Arden Courts of Livonia has 60 individual/private residents' rooms with each of the 60 resident rooms having a ½ bathroom (toilet and sink). On each of the houses, there is one tub room and one shower room, for a total of eight bathing/showering rooms.

B. Program Description
