RE: License #: AS820295005
Investigation #: 2027A0778002
Destined Place

Dear Mr Anwunah:

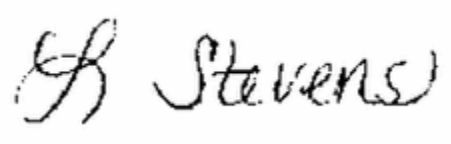
Attached is the Special Investigation Report for the above referenced facility. Due to the violations identified in the report, a written corrective action plan is required. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific time frames for each violation as to when the correction will be completed or implemented.
- Indicate how continuing compliance will be maintained once compliance is achieved.
- Be signed and dated.

If you desire technical assistance in addressing these issues, please feel free to contact me. In any event, the corrective action plan is due within 15 days.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (313) 456-0380.

Sincerely,



LaKeitha Stevens, Licensing Consultant

ALLEGATION: Rodent infestation that is not being addressed. 9/10/26 a live rat was in the resident's bedroom.

INVESTIGATION: On 09/15/2026, Consultant Kara Robinson conducted an onsite inspection. She interviewed Home Manager Philip Mmuo and Residents B-D. Phillip indicated Resident A signed out to go in the community, and he is due back at nighttime. Phillip stated the facility does not have roaches. However, a few weeks ago Resident A told him he saw "a couple of mice" near the upstairs bathroom so he went and bought mouse traps. Phillip stated Resident A informed him that since purchasing the traps he has found two dead mice. Phillip stated he has never personally observed a live mouse in the facility.

Mrs. Robinson completed face-to-face interviews with Residents B-D. Resident B indicated he has seen mice in the facility. He stated he saw them near the kitchen near the garbage cans. He stated he saw a roach on the stairs in May or June. Resident B stated staff put glue traps down and got rid of roaches. Resident B indicated he believed a pest control company would help with the problem. Resident C stated "a couple of days ago" he saw a mouse in his room crawling on the floor. According to Resident C, he hasn't seen any roaches. Resident D refused to be interviewed.

While at the facility, Ms. Robinson completed a telephone call with licensee designee; Mrs. Anwunah. Mrs. Anwunah stated "we're not hiding it" staff placed mice traps down a couple of weeks ago. She indicated Resident A informed the home manager- Philip of mice. According to Mrs. Anwunah the facility does not have roaches or bed bugs but has mice. Mrs. Anwunah indicated "we have to work on it" and she needs time to address the problem. She indicated she searched the perimeter to see how they are getting in but suspects the residents are leaving the

side door open when they go into the backyard. Mrs. Anwunah indicated an appointment has been scheduled with Terminix for treatment.

Ms. Robinson and I attempted contact with Resident A on 09/15/26, 9/16/2026, 9/17/2026, 9/18/2026, 9/21/2026 and 11/5/2026. To date, Resident A has failed to return contact with consultant Kara Robinson or myself.

On 11/05/2026, I conducted an exit conference with Mrs. Anwunah. She was informed this complaint will be substantiated and a corrective action plan is requested.

APPLICABLE RULE	
R 400.645	**Environmental health.**
	(6) An insect, rodent, or pest control program must be maintained and carried out in a manner that continually protects the health of residents.
ANALYSIS:	Staff Phillip indicated Resident A told him he saw mice in the facility and purchased traps. Residents B-C indicated they saw mice in the facility. Licensee designee, Mrs. Anwunah indicated “we’re not hiding it” and she had staff place traps throughout the facility. Mrs. Anwunah indicated an appointment has been scheduled with Terminix for treatment. The licensee does not have an insect, rodent, or pest control program maintained and carried out in a manner that continually protects the health of residents.
CONCLUSION:	**VIOLATION ESTABLISHED**

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action, I recommend the status of the license remains unchanged.
