## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### A. Physical Description of Facility

This is a single-story four-bedroom home with full, unfinished basement. The home is in the city of Caro, and is owned by EJV Rental, LLC with a mortgage. Written permission of the owner for the applicant to operate an adult foster care facility on the premises is on file. The property is leased to the applicant.

The furnace and hot water heater are located in the basement with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware located at top of the stairs. The facility is equipped with interconnected, hardwire smoke detection system, with battery back up, which was installed by a licensed electrician and is fully operational. The facility has two ramped exits, and may accommodate residents who require the use of a wheelchair. Additionally, both the NW and SW bedrooms have outside egress doors that open onto an additional ramp.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
NW	15.58' x 16'	249 sq. ft.	2
SW	15.58' x 14'	218 sq. ft.	2
S	9.58' x 12.67'	121 sq. ft.	1
SE	11.9' x 11.67'	138 sq. ft.	1

The living (22' x 27') and dining room (20' x 13.5') areas measure a total of 864 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

Based on the above information, it is concluded that this facility can accommodate **six (6)** residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.

## **B. Program Description**

Admission and discharge policies, program statement, refund policy, personnel policies, and standard procedures for the facility were reviewed and accepted as written. The applicant intends to provide 24-hour supervision, protection and personal care to **six** (6) male or female ambulatory adults whose diagnosis is developmentally disabled or mentally impaired, in the least restrictive environment possible. The program will include social interaction skills, personal hygiene, personal adjustment skills, and public safety skills. A personal behavior support plan will be designed and implemented for each resident's social and behavioral developmental needs. Residents will be referred from Tuscola Behavioral Health Systems.

If required, behavioral intervention and crisis intervention programs will be developed as identified in the assessment plan. These programs shall be implemented only by trained staff, and only with the prior approval of the resident, guardian, and the responsible agency.

The licensee will provide all transportation for program and medical needs. The facility will make provision for a variety of leisure and recreational equipment. It is the intent of this facility to utilize local community resources including public schools and libraries, local museums, shopping centers, and local parks.
