RE: License #: AS390304503
Centerpointe Recovery Center II
1147 Oakland Dr.
Kalamazoo, MI 49008

Dear Ms. Myhalyk:

Attached is the Addendum to the Original Licensing Study Report for the above referenced facility.

Please review the enclosed documentation for accuracy and feel free to contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please feel free to contact the local office at (269) 337-5066.

Sincerely,

Susan Gamber, Licensing Consultant
Bureau of Children and Adult Licensing

| Facility Telephone #: | (269) 382-3698 |
| Capacity: | 5 |
| Program Type: | MENTALLY ILL |

II. Purpose of Addendum

Increase license capacity at licensee request

III. Methodology

09/17/2010 On-site inspection completed

09/17/2010 Receipt of occupancy permit

IV. Description of Findings and Conclusions

I inspected the facility on September 17, 2010 at the request of administrator Bruce Jones, who also completed the Request for Modification of the Terms of the License/Registration.

In order to create more space the attached garage has been converted into a two person bedroom. A hallway has been added from the living room to the new bedroom. An office/medication room has also been created in the new space. The bedroom measures 130 square feet, and there is three feet of space in between the two twin beds as required. The bedroom has two windows for emergency egress, and two small individual closets. Residents will share one five drawer dresser. Because placement in this facility is typically very short term, few individuals arrive with enough belongings to require more storage space. The bedroom also contains a mirror and a chair.

The smoke detection system has been extended to the remodeled area and was functioning at the time of my inspection. Added door hardware is non-locking against egress.

Additional remodeling throughout the facility has slightly increased the dining area. The bathroom has been remodeled to be handicap accessible with a shower.

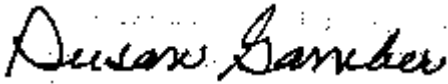

There remains sufficient living area space to accommodate five home occupants.

With remodeling the facility is now wheelchair accessible. A ramp has been built at one exit, and a second door exits to ground level. A sidewalk has been added to surround the entire facility for wheelchair accessibility.

The building inspector for the city of Kalamazoo issued a certificate of occupancy dated September 15, 2010.

V. Recommendation

I recommend that the capacity of this small group home be increased to five (5).
