Facility Telephone #:	(269) 692-2400
Capacity:	6
Program Type:	DEVELOPMENTALLY DISABLED AGED MENTALLY ILL

II. Purpose of Addendum

Glenda Pillars, licensee, extensively remodeled the 2nd level of the adult foster care home after a fire caused damage to that area.

III. Methodology

07/29/11 – Inspection Completed On-site

IV. Description of Findings and Conclusions

The 2nd story of the home has been extensively remodeled and the function of rooms changed. All the paneling that was previously in the home has been replaced with dry wall.

The 2nd story now has 3 resident bedrooms: bedrooms # 1 and 2 are located on the East side of the house and will be licensed for 1 person each, bedroom # 3, on the West side, will remain licensed for 2. The measurements are on file and each of the rooms contains the required usable floor space for the requested capacity.

Bedroom # 4 on the main floor remains a 2 person bedroom. One bedroom on the main floor is now an office, with the master bedroom remaining the licensee’s bedroom. No other changes were made to the main floor. The basement was not affected by the fire and did not require any updating.

To meet the revised building codes, the home now has 10 interconnected smoke detectors, 3 of which are also carbon monoxide alarms. In granting Ms. Pillars an Occupancy Permit the building inspectors has approved the building, electrical and mechanical working of the home. This was done on 07/25/11 and the approvals are on file.

V. Recommendation

It is recommended that the home be approved for the return of adult foster care residents effective 07/29/11.
