II. Purpose of Addendum

An on-site inspection was completed due to massive construction of the facility as of a fire. Therefore, I needed to re-measure the facility to ensure compliance.

III. Methodology

On-site inspection was completed on 05/02/2012. During the onsite I re-measured four bedrooms, living room, dining room and family room.

IV. Description of Findings and Conclusions

The home was originally licensed for six and remains licensed for six.

The home is a four bedroom, four bathroom ranch with a one car attached garage. The furnace and hot water tank are located in the basement and separated by a fire door located at the top of the stairs. The new measurements for the facility are:

Bedroom #1: $12.5 \times 11.7 = 144.75$ sq. ft. (1 resident)

Bedroom #2: $17.5 \times 8.2 + 11.8 \times 5.7 = 207$ sq. ft. (1 resident)

Bedroom #3: $16.2 \times 13.11 = 225$ sq. ft. (2 residents)

Bedroom #4: $17.5 \times 14.11 = 259$ sq. ft. (2 residents)

Dining room: $12.11 \times 12.7 = 162.5$ sq. ft.

Living room: $25 \times 14.7 = 364.5$ sq. ft.

Family room: $15.2 \times 16 = 242$ sq. ft.

V. Recommendation

Recommend license remain the same with the new above measurements for the facility.
