II. Purpose of Addendum

The purpose of this report is to increase this facility's capacity from four residents to five residents and to describe the room that the licensees remodeled in order to make the capacity modification.

III. Methodology

04/17/2012 Contact – Telephone Call Received
Spoke with licensees to schedule on-site inspection

04/20/2012 Inspection Completed – On-site

IV. Description of Findings and Conclusions

Licensees remodeled a room on the lower level of the home to make a fourth resident bedroom. The bedroom measures 18' x 9' (162 square feet) and will house one resident. There is a private sink inside the room and a sliding glass door that leads directly to an outside patio located in the back yard. The sliding glass door has been equipped with an alarm so the licensees will be notified when the resident exits the home.

V. Recommendation

I recommend increasing this family home's capacity to five residents.
