The furnace and hot water heater are located in the basement with a 1-3/4 inch solid wood core door equipped with an automatic self-closing device and positive latching hardware located in a room that is constructed of material that has a 1-hour-fire-resistance rating. There are no gas appliances in the basement area; all are powered by electricity. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

1	7.75 X 8.75	68	1
2	8.75 X 8.75	77	1
