Facility Telephone #:	(616) 842-1900
Capacity:	80
Program Type:	AGED ALZHEIMERS

II. Purpose of Addendum

The purpose of this addendum is to document an increase of the facility’s licensed bed capacity.

III. Methodology

On February 27, 2014, the authorized representative submitted floor plans and operational narrative for review. The authorized representative stated that the requested increase of four licensed beds is based on current licensed bed capacity, local market demand for room, board, and supervised personal care, and the home’s ability to staff appropriately to meet the services identified within the home’s program statement and future business plan.

IV. Description of Findings and Conclusions

The facility has been continually licensed as a home for the aged since 1985. The facility capacity was originally approved for 120 licensed beds in 1985. Rooms 221, 223, 321, and 323 were all originally licensed for two beds. The authorized representative is requesting that these currently vacant rooms now be considered for one licensed bed each. The facility’s current 3223 square feet of resident day, dining, and recreational space exceeds the required 2400 square footage requirements for 80 residents.

V. Recommendation

I recommend approval a licensed capacity of 80.
