## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### A. Physical Description of Facility

The facility is a ranch style home located in suburban Byron Center in an area of similarly constructed homes. The main floor consists of a living room, kitchen and dining area, a separate sitting area, three resident bedrooms, one full bathroom, a laundry room which also has a half bathroom, and a staff office. The furnace room and utilities are located in the lower level of the facility. The lower level is finished with two bedrooms and a full kitchen/living room area and one full bathroom. There is an exit directly to the outside but the lower level is not currently designated for resident use. The facility is not wheelchair accessible. The facility has two approved means of egress. The facility utilizes private water and septic systems which have been approved by the Kent County Health Department.

The gas furnace and hot water heater are located in the lower level with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware located with the furnace room, which is finished with a 1 hour protection. The facility is equipped with an interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	13'6" x 12'	162 sq. ft.	2
2	12'5" x 13'6"	167 sq. ft.	2

3	11' x 10'	110 sq. ft.	1
---	-----------	-------------	---

The living, dining room and 2<sup>nd</sup> sitting room areas measure a total of 598 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.
