II. Purpose of Addendum

To re-evaluate licensed capacity.

III. Methodology

Onsite inspection on 10/7/2014 to measure square footage of the bedroom 3.

IV. Description of Findings and Conclusions

On October 8, 2014, the licensee designee sent a written request to increase capacity to 6 residents. This bedroom was originally licensed for 1 resident due to lack of square footage.

The home was originally licensed for 5 residents with the following dimensions:

Bedroom 1 130 sq ft (2 residents)
Bedroom 2 131 sq ft (2 residents)
Bedroom 3 126 sq ft (1 resident)

On November 18, 2014, the licensee designee's modification request was approved to increase the resident capacity of Bedroom 3 from a 1 resident bed to a 2 bed occupancy room. This increase total capacity to 6 residents.

During the onsite inspection on October 7, 2014, Bedroom 3 was inspected and had the following dimensions and capacity:

Bedroom 3 10.5 X 12.5= 131 sq ft (2 residents)

Based on the dimensions and licensee designee's request to increase capacity, I conclude the home can accommodate 6 residents.

V. Recommendation

I recommend increasing capacity from 5 to 6 residents.
