## II. Purpose of Addendum

The facility wants to increase the number of licensed beds to a total of 23 beds.

## III. Methodology

- The Bureau of Health Facilities Engineer Section (BHFES) has approved The Pines of Burton South to add one additional bed for a total bed count of 23 beds.
- The facility's authorized representative, Randy LeGault, has submitted an updated application information form requesting that the total number of licensed beds be increased from 22 to 23.
- New Transmittal Sheet was received on 01/06/15 from BHFES and Occupancy Approved.

## IV. Description of Findings and Conclusions

On 11/21/14, Laura Remus from the Bureau of Health Facilities Engineer Section approved The Pines of Burton South to add one additional bed for a total bed count of 23 beds, and she informed the facility that they have to designate a specific resident room they want licensed for two beds. Ms. Remus said that based on the current room sheets, the facility can designate one of the following rooms: Rooms 1, 10, 11, 20, 21, and 22.

On 01/05/15, Mr. LeGault submitted an Application Updated Information to increase the beds from 22 to 23. He has designated Room 22 for the added bed and he has notified Ms. Remus. On 01/06/15, Ms. Remus sent me a new Transmittal Sheet and Occupancy Approved.

## V. Recommendation

I recommend that the facility's bed capacity be increased from 22 licensed beds to 23 licensed beds.
