II. Purpose of Addendum

Change usage of space

III. Methodology

03/13/2015-Request for modification of space usage
04/02/2015-Consultation with Bureau of Fire Safety

IV. Description of Findings and Conclusions

On January 8, 2015 the licensee was notified that the occupant of the independent living apartment located on the upper level of Golden Orchards I needed to be counted as part of the total licensed capacity of 20, per Administrative Rule 400.15105(2).

On March 13, 2015 the licensee designee submitted documentation that modifications were completed on the apartment so that it is separated from the adult foster care facility. The apartment and the licensed facility no longer share any common entrances or space.

On April 2, 2015 BFS inspection Richard Day advised that BFS did not require any additional modification for approval. Mr. Day did recommend that the licensee verify building code requirements with the local building authority.

V. Recommendation

I recommend that the upper level apartment be considered separate from the licensed facility and that the occupant does not have to be counted as part of the licensed capacity of 20.
