## **III. DESCRIPTION OF FINDINGS & CONCLUSIONS**

### **A. Physical Description of Facility**

This is a ranch-style home located in a rural neighborhood outside of Whitehall, MI. The resident living area is located on the main floor and includes 4 bedrooms, 2 full bathrooms, a dining room, a living room and a kitchen. The basement will be off-limits to residents and is not approved for their use. This home is wheelchair accessible and has 2 approved means of egress that are equipped with ramps from the first floor. This home utilizes a private water and sewage system.

The gas furnace and hot water heater are located in the basement with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive-latching hardware located at the top of the stairs. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	16'X11'9" + 4'9"X2'5"	199.50	1
2	16'2"X10'11" + 10'X11"	188.08	1
3	14'X11'5" + 4'8"X2'4"	170.74	1
4	14'X11'5" + 4'8"X2'4"	170.74	1

The licensee has the option of putting up to two residents in any of the above bedrooms with 130 or more square feet of usable floor space. However, capacity is limited to a maximum of six AFC residents.

The living, dining, and sitting room areas measure a total of 644.69 square feet of living space. This complies with the 35 square feet/per occupant requirement.

Based on the above information, it is concluded that this facility can accommodate six (6) residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.
