II. Purpose of Addendum

Licensee, Diane Wildrom added on to the existing structure of the home. The additional bedrooms are for personal family use and will not be utilized by residents.

III. Methodology

On 05/08/2014, I conducted a renewal inspection of the facility and it was noted the facility had a new addition. The licensee, Diane Wildrom provided a building permit with final inspection approval and a blueprint layout of the new addition which will be used strictly by the Licensee and her family, not by the residents of this AFC Family Home.

IV. Description of Findings and Conclusions

This addition does not change any of the emergency exits used by the residents nor does it enhance or encroach on the resident's living space/area.

V. Recommendation

There is no change to the resident's sleeping or living area of the facility. The addition to the home is the Licensee's private living quarters. Therefore; I recommend the addition of this information as an update of the OLSR but there is no change or modification to the terms of the registration/license of this facility.
