## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### A. Physical Description of Facility

This is a ranch style home with an attached two car garage. The facility is located in a rural area approximately eight miles north of Hillman. The facility consists of two living rooms, dining area, kitchen, four resident bedrooms, one non-resident bedroom and three full bathrooms. The home is wheelchair accessible and has one approved means of egress that is equipped with a ramp from the first floor.

The gas furnace and hot water heater are located in the basement with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware. The facility also utilizes an outdoor wood furnace. The facility is equipped with an interconnected, hardwire smoke detection system, with battery backup, which was installed by a licensed electrician and is fully operational.

The facility has private water and septic system. An environmental health inspection was conducted on April 20, 2016. The Sanitarian determined the facility to be in substantial compliance with applicable rules.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	12' x 11'	132	1
2	12' x 11'	132	2
3	19'2" x 11'5"	218	2
4	10'3 x 9'	92	1

The living and dining areas measure a total of 635 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.

Based on the above information, it is concluded that this facility can accommodate six (6) residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.
