## II. Purpose of Addendum

This addendum is being completed to increase the capacity from 8 to 10.

## III. Methodology

11/02/2016 On-site inspection for original issuance.

03/15/2017 On-site inspection completed verified second shower room.

## IV. Description of Findings and Conclusions

On November 2, 2016, during my on-site inspection for original issuance the facility only had 1 shower room/bathing facility. This limited the capacity to 8 residents due to:

**R 400.14407 Bathrooms.** (4) A home shall have a minimum of 1 toilet, 1 lavatory, and 1 bathing facility for every 8 occupants of the home.

The facility has 10 resident rooms and each room has a half bath but required another bathing facility.

On March 15, 2017, I completed an on-site and verified that the facility had added a second shower room/ bathing facility.

## V. Recommendation

I recommend that the capacity be increased from 8 to 10.
