The facility is wheelchair accessible.

The furnace and hot water heater are located on the main level next to the laundry room with a 1 ¾ inch solid core door equipped with an automatic self-closing device. On May 15, 2017, a new air conditioner was installed at the facility by a licensed professional and a licensed professional inspected the furnace. The furnace was found to be in safe operational condition with no signs of carbon monoxide. The laundry room is located adjacent to the garage inside the home. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

The facility has a private well and sewer system. An environmental health inspection by the Genesee County Health Department was conducted on 7/18/2017 and 8/07/2017. The facility was determined to be in substantial compliance with all applicable licensing rules pertaining to environmental health on 08/28/2017.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

| Bedroom # | Room Dimensions | Total Square Footage | Total Resident Beds |
|-----------|-----------------|----------------------|---------------------|
| Bedroom 1 | 18'2" x 12'5" | 228 | Office |
| Bedroom 2 | 18'2" x 12'8" | 233 | 2 |
| Bedroom 3 | 12'8" x 17'8" | 228 | 2 |
| Bedroom 4 | 13'6" x 17'7" | 241 | 2 |

The living, dining and sitting room areas measure a total of 926 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

The home has two separate and independent means of egress to the outside. The means of egress were measured at the time of the initial inspection and exceed the 30 inch minimum width requirement. The required exit doors are equipped with positive latching non-locking against egress hardware. All the bedroom and bathroom doors have conforming hardware and proper door width.
