II. Purpose of Addendum

The purpose of this Addendum is to document a change in the use of space in this AFC home.

III. Methodology

11/09/2017	Contact- Face to Face Modification Request-Verbal
11/09/2017	Inspection Completed On-Site Revised Floor Plan with Modification provided Review of changed space.

IV. Description of Findings and Conclusions

On November 09, 2017, during the interim inspection, Mr. Jefferies requested a change in the use of space. Mr. Jefferies has converted the laundry room into a private bedroom. This space includes the bedroom, walk in closet with a sitting area and a private bathroom.

Mr. Jefferies submitted a revised floor plan, noting the change of the laundry room to a resident bedroom. This change in floor plan does not change the evacuation plan, nor does this change the general living space for the residents.

During the interim onsite inspection I found that the laundry room was large enough to accommodate a resident bedroom. Bedroom has been completed and measures 12' x 11' yielding 132 sq. ft., which is sufficient space for one resident. Plus there is a walk in closet with a sitting area that measures 6' x 9' adding an additional 54 sq. ft.

V. Recommendation

I recommend that the space formerly known as the laundry room be converted now to a resident bedroom suitable for one resident. This area includes a walk in closet with a sitting area and a private bathroom. NOTE: The licensed capacity of this home remains at two (2) residents.
