### III. DESCRIPTION OF FINDINGS & CONCLUSIONS

#### **A. Physical Description of Facility**

The facility is located in a rural area in Rives Junction. It is a ranch style home with 3 bedrooms, 2 bathrooms, a kitchen, living room, and dining room. There is a patio on the back of the house. The home has private water which has been inspected and approved by the local county environmental health sanitarian.

The furnace and hot water heater are located in the basement with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware located at top/bottom of stairs. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1(NW)	13x13	169	2
2(NE)	10.5x12.5	131	2
3(SE)	9.66x10.33	100	1

The living, dining, and sitting room areas measure a total of 247 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

Based on the above information, it is concluded that this facility can accommodate five (5) residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.

The home cannot accommodate wheelchairs.
