## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### **A. Physical Description of Facility**

This single-story ranch home is in a subdivision of similarly built homes located in the City of Walker, Kent County. The home has three (3) main floor resident bedrooms and one full bathroom designated for resident use and a half bath designated for staff and resident use. The home has a large living room, dining room and kitchen all located on the main floor. The home is wheelchair accessible and has 2 approved means of egress that are equipped with ramps from the main floor. One ramp is located from the kitchen exit out to the garage, the second ramp is located out the living room exit, and the front door exit is ground level and does not need a ramp. This home is capable of accommodating residents who are physically handicapped and in need of a wheelchair accessible home. This home does have a basement that will not be used by residents.

An onsite inspection completed on 04/18/2018 verified that the home is in compliance with all applicable environmental health administrative rules. The home utilizes public water and public sewer. The electric furnace and gas hot water heater are located in the basement with a 1-3/4-inch solid core door equipped with an automatic self-closing device and positive latching hardware located at top of the stairs. The facility is equipped with interconnected, hardwire smoke detection system, with battery backup, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	13.50X12	162	2
2	13.50X12	162	2
3	13.50X12	162	2

The living, dining, and sitting room areas measure a total of 460.50 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.

Based on the above information, it is concluded that this facility can accommodate **six (6)** residents. It is the licensee’s responsibility not to exceed the facility’s licensed capacity.

**B. Program Description**

Admission and discharge policies, program statement, refund policy, personnel policies, and standard procedures for the facility were reviewed and accepted as written. The applicant intends to provide 24-hour supervision, protection and personal care to **six (6)** male or female ambulatory adults whose diagnosis is physically handicapped, developmentally disabled, aged, TBI (traumatic brain injury) or mentally impaired, in the least restrictive environment possible. The program will include social interaction skills, personal hygiene, personal adjustment skills, and public safety skills. A personal behavior support plan will be designed and implemented for each resident’s social and behavioral developmental needs. The applicant intends to accept residents from Kent County-DHHS, Kent County CMH, or private pay individuals as a referral source.

If required, behavioral intervention and crisis intervention programs will be developed as identified in the assessment plan. These programs shall be implemented only by trained staff, and only with the prior approval of the resident, guardian, and the responsible agency.

The licensee will provide all transportation for program and medical needs. The facility will make provision for a variety of leisure and recreational equipment. It is the intent of this facility to utilize local community resources including public schools and libraries, local museums, shopping centers, and local parks.
