IV. Description of Findings and Conclusions

The facility was licensed on 01/02/2013. Licensees, Timothy and Jessica Adams purchased the home from a previous licensee, therefore it was considered a continued license. The original licensed capacity was 20 resident beds, Resident Room #5 contained four resident beds. On 10/12/2015, the licensees requested a decrease capacity to 16 resident beds and were not utilizing Room #5. On 08/02/2018, the licensees requested to increased capacity back to the original 20 resident beds, utilizing Room #5. On 09/13/2018, an onsite inspection was completed, and Room #5 was measured as follows:

Resident Room #	Room Dimensions	Total Square Footage	# of Resident Beds
5	14'9" X 21'6"	311.21	4

The room measurements are sufficient enough to accommodate four resident beds, as originally licensed.

V. Recommendation

I recommend the facility's capacity be increased to 20 resident beds.
