## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### A. Physical Description of Facility

The Traverse Neuro Rehabilitation Adult Foster Care home is a single-story ranch style home located within the city of Traverse City, Michigan. The home has two single resident bedrooms and two double resident bedrooms, both of which have attached full bathrooms. One of these two double occupancy resident bedrooms is a large open room designed, and previously used, as a studio apartment with a full kitchen, dining room and living space. The kitchen is disabled and will not be usable by residents. Another full bathroom is located near the two single occupancy bedrooms and are available for all residents to use. The home has a large living and dining room in the center of the home, laundry facilities and kitchen.

The furnace and hot water heater are located in the basement with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware located at top/bottom of stairs. The facility is equipped with interconnected, hardwire smoke detection system, with battery backup, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	11'X11'	121	1
2	9'9"X11'5"	111	1
3	16'6"X10'	165	2
4	31'X14'	434	2

The living, dining, and sitting room areas measure a total of 436 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

Based on the above information, it is concluded that this facility can accommodate 6 residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.
