II. Purpose of Addendum

Change in the use of space in the AFC home.

III. Methodology

On 07/01/2020, Licensee Gordon Plescher submitted a Request for the Modification of the Terms of the License form. During the course of conducting a renewal inspection at the home, I observed a new private resident room built in the existing building.

IV. Description of Findings and Conclusions

The added space is a single bedroom, measured size is 17' X 7' which allows room for one (1) resident. Mr. Plescher removed steps and a lower sitting area that lead to the outside of the home to create this new bedroom. This does not change the capacity of the home but allows for another private resident room.

V. Recommendation

I recommend the use of this newly built private room and add this room addition to the OLSR.
