## II. Purpose of Addendum

To increase the licensed resident capacity from five residents to six residents.

## III. Methodology

On 06/30/2020, licensee Re'Ella Burrell requested to increase her licensed resident capacity from five residents to six residents.

On 07/08/2020, I conducted an on-site inspection and measured a fourth resident bedroom, previously occupied by a member of the household who no longer resides in the home.

## IV. Description of Findings and Conclusions

Resident bedroom #4 was measured during the site-on inspection. The resident bedrooms have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	13'8" x 11'3"	156	2
2	12' x 10'	120	1
3	13'8" x 10'	138	2
4	9'6" x 11'3"	107	1

The indoor living and dining areas measure a total of 380 square feet of living space. This exceeds the minimum of 35 square feet per occupant requirement.

Based on the above information, this home can accommodate six residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.

## V. Recommendation

I recommend the licensed resident capacity be increased from five residents to six residents.
