<b>Facility Telephone #:</b>	(906) 204-4378
<b>Capacity:</b>	6
<b>Program Type:</b>	DEVELOPMENTALLY DISABLED MENTALLY ILL

## II. Purpose of Addendum

This Addendum will identify a 2<sup>nd</sup> bedroom on the first floor as a resident bedroom. The facility now has 2 resident bedrooms on the 1<sup>st</sup> floor and 2 resident bedrooms on the 2<sup>nd</sup> floor. The capacity has also been increased from 5 to 6.

## III. Methodology

On May 7, 2021, during my renewal inspection Mr. Gulley asked that his capacity be increased from 5 to 6 using the additional bedroom on the 1<sup>st</sup> floor. During my renewal inspection I found resident paperwork that needed to be updated and completed and told Mr. Gulley when he was in full compliance with his current residents, I would return for an on-site inspection to increase his capacity.

On June 15, 2021, I completed an onsite inspection and verified compliance with the rule violations. I measured the room and requested an updated floor plan and evacuation route.

On June 30, 2021, I received a copy of the floor plan and evacuation route of the facility.

## IV. Description of Findings and Conclusions

This facility originally had all resident bedrooms on the second floor. The original report also identifies additional common area on the second floor for the residents to recreate. The common area on the second floor has been converted to Mr. Gulley's living space and is not open the residents. There is plenty of common area on the first floor for resident to recreate. The bedrooms are as listed below.

Bedroom 1 1<sup>st</sup> floor NE 10' 4" x 12' 2" or 126 sq feet single occupancy

Bedroom 2 1<sup>st</sup> floor SE 12' x 12' 9" or 154 sq feet double occupancy

Bedroom 3 2<sup>nd</sup> floor SE10' 3" x11' or 113 sq. feet single occupancy

Bedroom 4 2<sup>nd</sup> floor NE12' x 14' or 168 sq. feet double occupancy

## V. Recommendation

I recommend the capacity be increased from 5 to 6. There is no change to the status of this license.
