## II. Purpose of Addendum

To make the former den a private resident bedroom.

## III. Methodology

I received a telephone call from Tracie Hernandez, Licensee Designee, requesting approval of a den to be converted to a resident bedroom. I advised Ms. Hernandez of the requirements, and request that pictures of the room be sent to me.

On 05/05/2021, I received an email from Tracie Hernandez, Licensee Designee, with attached pictures of the proposed resident bedroom, and the measurements of the room.

## IV. Description of Findings and Conclusions

Based on the pictures of this room, including the floor plan with measurements, I have determined that it meets the requirements of having this room be used as a resident bedroom. There is one easily openable window, and the square footage comes to more than 126 square feet. This does not mean an increase of resident capacity, which will remain at six (6).

## V. Recommendation

I recommend adopting the request to make the former den a private (one person) resident bedroom.
