## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### A. Physical Description of Facility

The Resilient - Maple adult foster care home is located in a residential area in Ypsilanti, MI. The home is a two-story structure with a full basement and attached garage. The first floor of the home consists of a living room, dining room, kitchen, 2 full bathrooms and three bedrooms. The second floor of the home consists of 3 bedrooms and full bathroom.

The furnace and hot water heater are located in the basement with a 1-3/4 inch solid core door equipped with an automatic self-closing device and positive latching hardware located at top of the stairs. The facility is equipped with interconnected, hardwire smoke detection system, with battery back-up, which was installed by a licensed electrician and is fully operational.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

| Bedroom # | Room Dimensions               | Total Square Footage | Total Resident Beds |
|-----------|-------------------------------|----------------------|---------------------|
| 1         | 9.9 X 10.3                    | 102 SQ. FT.          | 1                   |
| 2         | 10.10 X 9.9                   | 100 SQ. FT.          | 1                   |
| 3         | 13.6 X 12.0<br>+<br>3.6 X 2.6 | 172 SQ. FT.          | 1                   |
| 4         | 13.9 X 11.3                   | 157 SQ. FT.          | 1                   |
| 5         | 13.3 X 11.11                  | 148 SQ. FT.          | 1                   |
| 6         | 11.2 X 13.1                   | 147 SQ. FT.          | 1                   |

The living, dining, and sitting room areas measure a total of 402 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

Based on the above information, it is concluded that this facility can accommodate six (6) residents. However, there are currently 3 single occupancy bedrooms located on the 2<sup>nd</sup> floor of the facility. One is currently occupied by a single resident who has received treatment from the corporation for a number of years. Due to this resident's personal needs and requirements, he would benefit from being the only resident on the 2<sup>nd</sup> floor; therefore, the licensee has requested the capacity of the home to be **four (4)**. It is the licensee's responsibility not to exceed the facility's licensed capacity.

The home is not equipped with ramps at either exits therefore the home is not wheelchair accessible.
