**ALLEGATION:**

Multiple residents were in the van with two staff when the staff driving kept flooring the gas and slamming on the brakes, repeatedly so the residents were being thrown around in their seats. The driver almost lost control going towards a semi-truck and had to swerve tossing all residents around and some were hurt/bruised.

**INVESTIGATION:**

On 03/31/2022 I received a complaint via BCAL complaints.

On 04/04/2022, I spoke with Ms. Rose Koss of APS in Lapeer County. She indicated that APS would not be investigating the allegations.

On 04/14/2022, I conducted an onsite inspection at Elba South. An interview was conducted with Resident A. Resident A indicated that the driver of the van kept flooring the gas and slamming on the brakes. He and the other residents were thrown around as a result. He also almost lost control and barely missed hitting a semi-truck. Resident A indicated that staff was being attacked by Resident B while driving. He indicated that he did hurt his neck, however, it does not hurt at this time. Resident A's neck was observed. No bruising was observed at the time of the visit.

On 04/14/2022, I attempted an interview with Resident B. Resident B indicated that she is not interested in participating in an interview at this time and requested that I leave the room.

On 05/17/2022, I spoke with Ms. Andrea Banamo assigned Livingston County case manager for Resident A. She indicated that she has been made aware of the allegations made by Resident A. She also shared that the case is being investigated by recipient rights in her county.

On 05/17/2022, I spoke with Ms. Joey Marsh, assigned Recipient Rights Investigator in Livingston County. She indicated that based on her interviews with residents and staff, it appears as if the driver was being physically attacked by one of the residents. As a result of the attack the driver had to maneuver the vehicle while driving, which may have appeared as reckless driving. She indicated that will not be substantiating the case.

05/19/2022, I received an email from Ms. Morgan Yarkosky, license administrator. She indicated that Resident A was in the vehicle at the time when Resident B began attacking the driver from behind, which made the driving appear reckless. Resident B's behavior was noted in her behavior chart. No incident report was written. A copy of the behavior chart was received. It indicated that on 03/17/2022, due to staff driving on the highway, Resident B began hitting and slapping the driver of the van. Staff, Dominique Strong was identified as the driver. Staff Grasa McClure was also present in the vehicle.

On 05/20/2022, I spoke with direct staff, Mr. Dominique Strong. He indicated that on the day in question, as he was driving the residents back to the home, Resident B began attacking him. He indicated that he had went around two sharp turns when Resident B told him to stop driving crazy. He informed Resident B that it was he was not driving crazy, it was the way the road was made. After driving a bit further, Resident B began smacking and punching him upside his head. She also began hitting him with the walkie-talkie radio. He recalled that there were five residents present in the van. Staff, Ms. Grasa McClure was also present in the vehicle. Mr. Strong indicated that while attempting to block Resident B, he was tapping the brakes to maintain control of the vehicle while being attacked. He eventually was able to pull over to the side of the road to assist with getting Resident B under control. Mr. Strong denied that he kept flooring the gas and slamming on the brakes, repeatedly so the residents were being thrown around in their seats. He also denied that he almost lost control going towards a semi-truck as alleged.

On 05/20/2022, I spoke with direct staff, Ms. Grasa McClure. She indicated that Resident B had become upset because staff, Mr. Strong had gotten on the expressway. She added that the van can only go 65 mph and Resident B was getting upset due to the amount of time it was taking to get back to the home. Resident B began attacking the driver. The driver pulled over in an effort to redirect Resident B and to keep everyone in the vehicle safe. She denied that that he kept flooring the gas and slamming on the brakes, repeatedly so the residents were being thrown around in their seats. She also denied that he almost lost control going towards a semi-truck as alleged.

On 05/23/2022, I received an emailed copy of a valid driver's license for staff, Mr. Dominique Strong.

<b>APPLICABLE RULE</b>

**ADDITIONAL FINDINGS:**

She indicated that Resident A was in the vehicle at the time when Resident B began attacking the driver from behind, which made the driving appear reckless. Resident B's behavior was noted in her behavior chart. No incident report was written.

On 05/23/2022, I conducted an exit conference with the license administrator, Ms. Morgan Yarkosky. Ms. Yarkosky was informed that such an incident should have been written as an incident report based on the serious display of hostility by the resident towards the staff. A licensing violation was established. A corrective action plan is due within 15 days.

<b>APPLICABLE RULE</b>	
<b>R 400.14311</b>	<b>Investigation and reporting of incidents, accidents, illnesses and death.</b>

<b>ANALYSIS:</b>	Resident B began hitting and slapping the driver of the van while driving. Resident B's behavior was noted in her behavior chart. No incident report was written.  Due to the harm displayed towards staff, there is sufficient evidence to support the rule violation.
<b>CONCLUSION:</b>	<b>VIOLATION ESTABLISHED</b>
