III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

This facility is a two-story home located in Clio, Michigan. This facility is within a short traveling distance of several community resources and businesses. This facility is currently owned by Haven-Rowe AFC LLC and is pending sale to the applicant. This facility has been continually licensed since 1/25/1976. This facility is not wheelchair accessible. This facility utilizes a private well and septic system which was inspected and approved for use by the Genesee County Health Department on 5/15/23. The applicant's private living quarters are located on the main level of this facility and are separate from the resident living areas and bedrooms.

The hot water heater and furnace are located in the basement with a 1-3/4-inch solid core door equipped with an automatic self-closing device and positive latching hardware in rooms that is constructed of material that has a 1-hour-fire-resistance rating. The facility is equipped with interconnected, hardwire smoke detection system, with battery backup, which was installed by a licensed electrician and is fully operational. The furnace was inspected on 1/18/23 and is in good working order.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Location	Dimensions	Square Footage	Capacity
Bedroom #1	33'X19'	627 sq. ft.	4
Bedroom #1 is being licensed for four (4) beds in compliance with; R 400.14409 Bedroom space; "usable floor space" defined. (5) A maximum of 4 beds shall be allowed in any multioccupancy bedroom for those licensees and homes that were licensed on the effective date of these rules and that have had licenses in continuous effect.			
Bedroom #2	21'X17'	357 sq. ft.	2
Total Capacity = 6 residents			

There are two full bathrooms for resident use on the same level as the resident bedrooms. The living room area measures 220 sq. ft. and a separate sitting room area measures 256 sq. ft. The dining room contains a table and six chairs with room to serve six residents. The laundry area is located in the basement of this facility and is adequate to serve the needs of six residents.

Based on the above information, it is concluded that this facility can accommodate six (6) residents. It is the applicant's responsibility not to exceed the facility's licensed capacity.

B. Program Description

Admission and discharge policies, program statement, refund policy, personnel policies, and standard procedures for the facility were reviewed and accepted as written. The applicant intends to provide 24-hour supervision, protection, and personal care to **six (6)** male or female adults whose diagnosis is developmentally disabled, mentally ill, physically handicapped, or traumatic brain injury in the least restrictive environment possible. The program will include social interaction skills, personal hygiene, personal adjustment skills, and public safety skills. A personal behavior support plan will be designed and implemented for each resident's social and behavioral developmental needs.

If required, behavioral intervention and crisis intervention programs will be developed as identified in the assessment plan. These programs shall be implemented only by trained staff, and only with the prior approval of the resident, guardian, and the responsible agency.

The applicant will provide all transportation for program and medical needs. The facility will make provision for a variety of leisure and recreational equipment. It is the intent of this facility to utilize local community resources including public schools and libraries, local museums, shopping centers, and local parks.
