III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

The Shepler's AFC Home is a two-level facility situated in a rural wooded area in northeast Wexford County. The lower level is a walkout style basement, which is approximately 75 percent above grade. Six resident bedrooms, a full bathroom, laundry facilities and a large living area are all located on the lower level. The upper level has three resident bedrooms, one of which has its own full bathroom, a full bathroom, kitchen, dining room, and large living room area. The home is equipped with a ramp or doorway at grade on the lower level and thus can accommodate those residents who require regular use of a wheelchair. It is noted that any resident who requires the regular use of a wheelchair must reside in a bedroom on the lower level of the facility.

The furnace and hot water heater are located in a room, located on the lower level, that is constructed of material that has a 1-hour-fire-resistance rating. The facility is equipped with interconnected, hardwire smoke detection system, with battery backup, which was installed by a licensed electrician and is fully operational. The facility is equipped with an approved pull station alarm system and a sprinkled system installed throughout.

On January 30, 2024, the home was inspected by the Bureau of Fire Services. An "Approved" fire safety certification was recommended.

On February 13, 2024, the home was inspected by the DHD #10, Wexford County Health Department who determined that the home is in substantial compliance with applicable rules pertaining to environmental health, water supply and sewage disposal.

Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	10'6"X12'4"	130	up to 2
2	10'6"X11'3"	118	1
3	12'6"X12'6"	156	up to 2
4	11'6"X12'8"	146	up to 2
5	14'8"X13' irregular	166	up to 2
6	14'8"X13' irregular	166	up to 2
7	10'10"X 8'2"	88	1
8	10'10"X 8'2"	88	1
9	9' 8"X 9'	87	1

The living, dining, and sitting room areas measure a total of 427 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

Based on the above information, it is concluded that this facility can accommodate **12** residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.
