III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

ResCare Premier Center Woods is a two-story facility with a detached two car garage. The exterior of the home is comprised of brick. The home consists of a family room, living room, dining room, kitchen, two resident bedrooms, two full bathrooms, ½ bathroom, and laundry room located on the main floor. There are 3 resident bedrooms,

and a full bathroom on the second floor. The facility is not wheelchair accessible. The facility is owned by New Direction Rental Properties, LLC, and permission was granted for inspection of the home. ResCare Premier, Inc. has a lease agreement with New Direction Rental Properties, LLC that commenced on November 1, 2023.

The boiler and hot water heater are in the basement of the home with at least 1-3/4-inch solid core door to create floor separation. A furnace inspection and approval were completed on November 19, 2023. The laundry room is located on the main floor of the home. The facility is equipped with a smoke detection system. The smoke detectors are all hard-wired into the home’s electrical system with battery back-up and are in all sleeping and living areas. The facility has public water and sewer system.

There are two resident bedrooms located on the main floor of the home and three resident bedrooms on the second floor of the home. Resident bedrooms were measured during the on-site inspection and have the following dimensions:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
Bedroom 1 1 st floor East bedroom	11’4” x 13’7”	154	1
Bedroom 2 1 st floor West bedroom	12’2” x 13’6”	164	2
Bedroom 3 2 nd floor South bedroom	18’7” x 7’2”	133	1
Bedroom 4 2 nd floor East bedroom	10’10” x 10’	108	1
Bedroom 5 2 nd floor North bedroom	10’1” x 10’	101	1

The family room, living room, and dining room areas measure a total of 538 square feet of living space. This exceeds the minimum of 35 square feet per resident requirement.

Compliance with Rule 400.14410, bedroom furnishings, was demonstrated at the time of the final inspection. The bedrooms were clean, neat, and met all applicable rules relating to environmental and fire safety requirements.

The home has two (2) separate and independent means of egress to the outside. The means of egress were measured at the time of the initial inspection and exceed the 30 inch minimum width requirement of the rule. The required exit doors are equipped with positive latching non-locking against egress hardware. All the bedroom and bathroom doors have conforming hardware and proper door width.

The home has fire extinguishers, which meets the requirements of R 400.14506. The bedrooms have the proper means of egress as required by R 400.14508. The interior of the home is of standard lathe and plaster finish or equivalent in all occupied areas. The home meets the environmental and interior finish requirements of rules R 400.14502, R 400.14503, and R 400.14504.

Based on the above information, it is concluded that this facility can accommodate **six (6)** residents. It is the licensee's responsibility not to exceed the facility's licensed capacity.

B. Program Description
