RE: License #: AS630012292
CLC VonEberstein
1711 Northwood
Royal Oak, MI 48067

Dear Lisa Murrell:

Attached is the Renewal Licensing Study Report for the facility referenced above. You have submitted an acceptable written corrective action plan addressing the violations cited in the report. To verify your implementation and compliance with this corrective action plan:

- You are to submit documentation of compliance.
- You are to submit a Statement of Correction.

The study has determined substantial compliance with applicable licensing statutes and administrative rules. Therefore, your license is renewed. It is valid only at your present address and is nontransferable.

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, you may contact the local office at (248) 975-5053.

Sincerely,

A handwritten signature in black ink that reads "Frodet Dawisha". The signature is written in a cursive, flowing style.

- Corrective action plan compliance verified? Yes CAP date/s and rule/s:
N/A
- Number of excluded employees followed-up? N/A
- Variances? Yes (please explain) No N/A

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:

R 400.14401	Environmental health.
	(2) Hot and cold running water that is under pressure shall be provided. A licensee shall maintain the hot water temperature for a resident's use at a range of 105 degrees Fahrenheit to 120 degrees Fahrenheit at the faucet.

During the on-site inspection on 02/14/2024, the hot water was outside the safe range of 105°-120° Fahrenheit in the kitchen (121.8°), bathroom #1 (122.5°), bathroom #2 (121.6°) and in the half bathroom (121.6°).

R 400.14511	Flame-producing equipment; enclosures.
	(2) Heating plants and other flame-producing equipment located on the same level as the residents shall be enclosed in a room that is constructed of material which has a 1-hour-fire-resistance rating, and the door shall be made of 1 3/4-inch solid core wood. The door shall be hung in a fully stopped wood or steel frame and shall be equipped with an automatic self-closing device and positive-latching hardware.

During the on-site inspection on 02/14/2024, the door to the boiler room was equipped with the automatic self-closing device, but the device was broken.

The hot water heater located on the same level as the residents was not equipped with an automatic self-closing device and positive-latching hardware.

A corrective action plan was requested and approved on 02/14/2024. It is expected that the corrective action plan be implemented within the specified time frames as outlined in the approved plan. A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.	
---	--

IV. RECOMMENDATION

An acceptable corrective action plan has been received. Renewal of the license is recommended.
