II. Purpose of Addendum

The licensee has requested modifying the original license of the home to barrier free accessibility.

III. Methodology

On 5/13/24, I interviewed licensee Renae Clark at another AFC home owned by her. Mrs. Clark reported making changes to the AFC home located at Liden Ave. Mrs. Clark reported modifying a bathroom to be handicap accessible and adding two separate emergency wheelchair ramps; one at the front entrance and one at the rear exit of the home.

On 5/13/24, I inspected the homes bathroom and ramps. I measured the height and length of the front and rear wheelchair ramps at the home. Pictures were taken of the two wheelchair ramps along with one handicapped accessible bathroom.

IV. Description of Findings and Conclusions

The home was originally licensed on 4/29/16 not to accommodate full time wheelchair accessibility. The licensee added emergency wheelchair ramps to the front and rear entrances of the home on 11/1/23. The home has an existing full barrier-free bathroom for resident use that includes a roll-in shower to provide ample space for assisted showering.

Measurements and pictures of the wheelchair ramps and handicapped accessible bathroom were documented.

V. Recommendation

I approve the licensee's request to modify the license to reflect it is a barrier free and wheelchair accessible home with effective 5/17/24.
