ALLEGATION:

Resident A was given another resident's medication.

INVESTIGATION:

On 05/23/2024, I made a telephone call to the administrator, Vadie Williams. Vadie confirmed the allegations. She stated direct care worker, LeAngel Collins, made the mistake and gave Resident A Resident B's medications. She was taken to the hospital and kept overnight for observation.

On 05/29/2024, I received an email from Vadie that consisted of the incident report, medication logs, verification of LeAngel's medication training, and an employee warning form, in which LeAngel was placed on probation and retrained on medication administration. The incident report was dated for 08/16/2024 at 8:00 p.m. It indicated LeAngel went in the medication cabinet to start passing medications. She had already handed Resident A her medications, when she realized the medications were on the wrong side of the cabinet and she had given her Resident B's medications. She tried to stop Resident A, but she had already taken them. LeAngel called poison control for instructions. Resident A was given Resident B's Benztropine Mesylate, Klonopine, Clozaril, Depakote, Inderal, and Seroquel.

On 06/06/2024, I made a telephone call to Justina, Resident A's case manager from All Wellbeing Services. She stated she was aware of the incident and that she had not had any other issues with the home prior to this. Justina stated she recommended that LeAngel be retrained on the five rights of medication training, before being allowed to pass medications again.

On 06/07/2024, I made a telephone call to Guardian A1, Tonya Harper from Michigan Guardian Services. She stated she was made aware of the incident and was satisfied with the way the home handled it. She also stated LeAngel was reprimanded and retrained.

On 06/11/2024, I made a telephone call to LeAngel. She was very apologetic. She explained that the medications are normally arranged in a certain order. Therefore, she passed the medications in the order she was accustomed to them being in. She did not realize that someone had changed the order. She had just handed Resident A what she thought was her medications, when she noticed the error. LeAngel tried to stop Resident A, but she had already taken them. She said everything happened so quickly.

APPLICABLE RULE	
R 400.14312	**Resident medications.**
	(6) A licensee shall take reasonable precautions to insure that prescription medication is not used by a person other than the resident for whom the medication was prescribed.
ANALYSIS:	Based on the information obtained during this investigation, reasonable precautions were not made to insure that prescription medications were not given to anyone other than the person they were prescribed to. Resident A was mistakenly given Resident B's 8:00 p.m. medications.
CONCLUSION:	**VIOLATION ESTABLISHED**

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, I recommend the status of the license remains unchanged.
