Dear Shanell Hughes:

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:

R 400.14306 Use of assistive devices.

(3) Therapeutic supports shall be authorized, in writing, by a licensed physician. The authorization shall state the reason for the therapeutic support and the term of the authorization.

FINDING: Multiple residents were observed with assistive devices and therapeutic supports like walkers and half bed rails; however, physician's orders stating the reasons for these devices and the terms of their authorizations were not available for review, as required.

R 400.14315 Handling of resident funds and valuables.

(3) A licensee shall have a resident's funds and valuables transaction form completed and on file for each resident. A department form shall be used unless prior authorization for a substitute form has been granted, in writing, by the department.

FINDING: Adult foster care (AFC) payments were not being recorded on the Resident Funds II form, as required. The licensee utilizes an electronic system to track AFC payments; however, a variance has not been submitted or approved to utilize such a system.

R 400.14507 Means of egress generally.

(5) A door that forms a part of a required means of egress shall be not less than 30 inches wide and shall be equipped with positive-latching, non-locking-against-egress hardware.

FINDING: The facility's front screen/storm door was locking against egress.

R 400.14507 Means of egress generally.

(2) A means of egress shall be arranged and maintained to provide free and unobstructed egress from all parts of a small group home.

FINDING: The bedroom suite on the North end of the facility has a living room with a sliding door and an egress door. The egress door leads to a hallway and a door directly to the outside. During the inspection, the two means of egress in the living room were obstructed. The sliding door was not only locking against egress, but there was also a wedge in the door (preventing it from being opened), and a chair was directly in front of the egress door to the hallway.

Either the sliding door latching/locking mechanism needs to be changed so it is non locking against egress and the wedge needs to be removed, or the chair in front of the door leading to the hallway needs to be removed allowing unobstructed egress to the outside of the facility in the event of an emergency.

R 400.14512

Electrical service.

(1) The electrical service of a home shall be maintained in a safe condition.

FINDING: Extension cords were observed in multiple resident bedrooms. Extension cords are prohibited.

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, renewal of the license is recommended.
