IV. Description of Findings and Conclusions

On 02/24/2025, I completed an onsite inspection at A Second Home AFC. The licensee completed renovations and increased the size of Bedroom #1 to increase the home's capacity from four to five residents. Bedroom #1 is now 138 square feet and meets the required square footage for two residents in the bedroom.

A Second Home AFC has a living room, kitchen and dining area, sunroom, three bedrooms, one resident bathroom and basement. The living room offers a total of 218 square feet which meets the required 35 square feet per person for five residents.

The three bedrooms in the facility are own sized as follows:

Bedroom #	Room Dimensions	Total Square Footage	Total Resident Beds
1	9'6" x 14'7"	138	2
2	11'6" x 13'1"	150	2

In addition, the licensee designee, Shaniya Cason, has submitted an application to add special certification to license for persons with mental illness and developmental disability. Ms. Cason plans to contract with Detroit Wayne Integrated Health Network. The home's program statement indicates they will provide a supportive, and nurturing environment for individuals living with mental illness and developmental disabilities. Their specialized program is designed to empower residents, promote independence, and enhance their overall quality of life. Each program is tailored to meet the unique needs of residents, ensuring personalized care and meaningful engagement. The home will give residents

access to life skills development, behavioral health support, social and recreational activities, vocational training and employment support, health and wellness programs, educational enrichment, crisis prevention and intervention and spiritual and cultural enrichment.

V. Recommendation

It is recommended that the capacity for A Second Home AFC be increased to five residents and special certification for mental illness and developmental disability added to license.
