## **II. Purpose of Addendum:**

The facility is currently licensed to provide 24-hour supervision, protection, and personal care to residents who are aged and/or traumatically brain injured. Licensee designee and administrator Cavel Young has requested the facility also provide adult foster care services to the developmentally disabled and mentally ill populations.

Cavel Young submitted an updated Program Statement and Admission Policy that includes the program goals and services to be provided to the mentally ill, and developmentally disabled populations. The facility's program will include social interaction, training to develop independent living skills, an opportunity for involvement in their community, and personal development. Referrals to the facility will be made by the potential residents' primary clinicians and through the residents' connected community mental health service agencies.

If needed, by residents, behavior interventions and specialized interventions will be identified in the resident's assessment plans. These interventions shall be implemented only by staff trained in the intervention techniques.

In addition to the above program elements, it is the intent of the facility to utilize local community resources for recreational activities including the public schools and library, local museums, shopping centers, churches etc. These resources provide an environment to enhance residents' quality of life and increase residents' independence.

Cavel Young meets the qualifications and training requirements identified in the group home administrative rules and has over three years of experience working with mentally ill, and developmentally disabled populations. Direct care staff are currently trained to provide services to both populations. Training verification is maintained in the employee's records.

## **III. Methodology**

On 07/17/2025, Cavel Young submitted to the department an updated admissions policy reflecting the admission of residents who are developmentally disabled and and or residents who have been diagnosed with mental illness.

**IV. Description of Findings and Conclusions**

Compliance with the licensing act and administrative rules related to Program Type have been determined.

**V. Recommendation**

I recommend the developmentally disabled and mentally ill populations be added to the facility's program type.
