RE: Lic/App. :	AS410418435
----------------	-------------

Dear Chantal Mutamuriza **Error! Reference source not found.:**

I have reviewed the attached licensing study report regarding the facility referenced above. MCL 400.713(3) of Act 218 Public Acts of 1979, as amended, the Adult Foster Care Facility Licensing Act authorizes the department to determine the activities and standards of care prior to the renewal of a license. MCL 400.713(3)(b) - License required; application; form; investigation; on-site evaluation; issuance or renewal of license; ... provides the following:

(3) Before issuing or renewing a license, the department shall investigate the activities and standards of care of the applicant and shall make an on-site evaluation of the facility. On site inspections conducted in response to the application may be conducted without prior notice to the applicant. Subject to subsections (9), (10), and (11), the department shall issue or renew a license if satisfied as to all of the following:

(b) The applicant's compliance with this act and rules promulgated under this act.

Since the issuance of a temporary license to you on 08/14/2024 and a 1<sup>st</sup> provisional on 02/14/2025 no residents have been admitted to this licensed adult foster care facility. As a result of there being no residents admitted to your adult foster care facility during the temporary license period, the department is not able to determine your compliance with Act 218 or the adult foster care rules related to resident care and services.

Therefore, based upon the findings summarized in the report referenced above, issuance of a 2<sup>nd</sup> provisional license is recommended in accordance with MCL 400.717(1) which provides:

(1) A provisional license may be issued to an adult foster care facility that has previously

held a temporary or regular license under this act or an act repealed by this act. A provisional license may be issued for 6 months if an adult foster care facility is temporarily unable to conform to the requirements of this act for a regular license and may be renewed not more than 2 consecutive times as provided in subsections (2) and (4). The issuance of a provisional license shall be contingent upon the submission to the department of an acceptable plan of correction for the adult foster care facility within the time limitations of the provisional period.

(3) If the provisional license is issued for deficiencies in the quality of care provided in the adult foster care facility, the provisional license is not renewable. If the quality of care deficiencies are corrected and intervening deficiencies of any kind are not incurred, a regular license shall be issued.

The issuance of a provisional license is based upon your written acceptance of the findings related to the absence of any residents during your temporary license period, your written acceptance of a provisional license, and your submission of an acceptable plan of correction. The provisional license is being issued effective 10/16/2025

You are now required to carry out your corrective action plan if you have not done so already.

Please note that in accordance to MCL 400.717(3) when a provisional license is issued because of deficiencies in "quality-of-care" the provisional license is not renewable.

Please contact me with any questions. In the event that I am not available and you must speak to someone immediately, please contact the local office (616) 356-0100.

Sincerely,

Jerry Hendrick, Area Manager
