II. Purpose of Addendum

To increase the capacity from 3 residents to 4 residents requested by Licensee Connalee Kleck.

III. Methodology

I measured the bedroom, and it is 15' 4" x 9' 4" = 143.0289 square feet. It is more than the required 70 sq feet for one resident and is large enough for an additional resident. I also checked the original living space and there was enough room for another resident in this licensed AFC home. The living space is 670 sq feet divided by 4 residents = 168.5 which is more than the required 35 square feet required for each resident.

IV. Description of Findings and Conclusions

The bedroom is 15' 4" x 9' 4" = 143.0289 square feet which is more than the required 70 sq feet. Living space is more than 35 square feet per resident.

V. Recommendation

I recommend the capacity be increased from 3 to 4 residents,

Arlene B. Smith
