## II. ALLEGATION(S)

	<b>Violation Established?</b>
It was alleged the resident had a large bruise on the right arm resulting from a fall.	No
Additional Findings	No

## II. METHODOLOGY

10/21/2025	Special Investigation Intake 2026A0627010
11/06/2025	Special Investigation Initiated - On Site
1/14/2026	Exit Conference via email

**Allegation:** It was alleged the resident had a large bruise on the right arm resulting from a fall.

### **Investigation:**

On 10/21/2025 the Bureau of Community and Health Systems received a complaint from Adult Protective Services (APS). The APS referral source alleged that Resident A during the week of 10/12/2025 had sustained a bruise on her right arm that was, "... the size of a baseball or smaller" as a result of falling.

On 11/06/2025, I conducted an onsite investigation at the facility and interviewed Altaf Veryamani, Executive Director, SP1, and SP2. I reviewed the Occurrence Reports for the month of October and noted an Occurrence documented for Resident A on 10/14/25 in which Resident A was getting up and lost her balance. The care aide documented the presence of a skin tear on the right arm, cleaning the wound and putting a dressing on it. There was no documentation noting the presence of bruising. The Executive Director reported that it is facility policy to use an Occurrence report as the primary tool for staff to document any significant incident involving a resident. There would only be other documentation if there were complicating factors requiring ongoing observation of an injury.

On 11/06/2025, I went with SP2 and the Executive Director to Resident A's room for an interview. Resident A was found lying in bed but easily arousable and pleasantly conversational. I asked Resident A if she is getting good care and whether staff respond to her when she calls for help. She responded that she gets good care and gets help when she calls. I inquired if she had any injuries that she has sustained recently to which Resident A showed me a 3 cm wound on her right anterior wrist that was well approximated and healing. I asked if she had any other bruises on her right arm? Resident A replied "no". SP2 helped Resident A pull her sleeve up and there was no bruising to be observed.

On 11/06/2025, I interviewed SP3, the medication technician who reported that Resident A's injury was minor and if an injury does not have a routine dressing change ordered on the Medication Administration Record (MAR), its progress would not be routinely documented. SP3 reflected familiarity with documenting resident incidents on the Occurrence report and knowledge of when to escalate to higher levels of treatment when necessary.

Resident A did not have a significant injury resulting from the fall of 10/14/25. Staff also documented adequately on the Occurrence reports documenting this incident.

<b>APPLICABLE RULE</b>	
<b>R 325.1922</b>	<b>Admission and retention of residents.</b>
	<b>(3) At the time of an individual's admission, a home or the home's designee shall complete a written resident admission contract between the resident and/or the resident's authorized representative, if any, and the home. The resident admission contract shall, at a minimum, specify all of the following:</b> <b>(a) That the home shall provide room, board, protection, supervision, assistance, and supervised personal care consistent with the resident's service plan.</b>
<b>ANALYSIS:</b>	Based on documents reviewed, interviews and observation there was no evidence to substantiate that Resident A had sustained a bruise on the right arm.
<b>CONCLUSION:</b>	<b>VIOLATION NOT ESTABLISHED</b>

### III. RECOMMENDATION

I recommend no change in the status of the license.
