RE: License #: AH630414388  
Investigation #: 2026A1019028

Dear Licensee:

Attached is the Special Investigation Report for the above referenced facility. Due to the violations identified in the report, a written corrective action plan is required. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific time frames for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the responsible party and a date.

Please review the enclosed documentation for accuracy and contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (517) 335-5985.

Sincerely,

A handwritten signature in blue ink, appearing to read "Elizabeth Gregory-Weil".

Elizabeth Gregory-Weil, Licensing Staff

<b>License Status:</b>	REGULAR
<b>Effective Date:</b>	08/01/2025
<b>Expiration Date:</b>	07/31/2026
<b>Capacity:</b>	80
<b>Program Type:</b>	ALZHEIMERS AGED

**II. ALLEGATION(S)**

	<b>Violation Established?</b>
Food is housed at unsafe temperatures.	Yes
Additional Findings	No

**III. METHODOLOGY**

04/02/2026	Special Investigation Intake 2026A1019028
04/02/2026	Special Investigation Initiated - Face to Face
04/02/2026	Inspection Completed On-site
04/02/2026	Inspection Completed-BCAL Sub. Compliance

**ALLEGATION:** Food is housed at unsafe temperatures.

**INVESTIGATION:**

On 4/2/26, an anonymous complaint was received that read *“Cooler in the resident “bistro” area is broken and not keeping foods cold. The temperature on the thermometer say [sic] the temp is high 60 to 70. Yogurt, cheese sticks etc. are being stored in there and it doesn't seem like a safe situation.”*

On 4/2/26, I conducted an onsite inspection. I was directed to the bistro where I observed sandwiches, yogurt, cheese and soda inside the cooler. A thermometer was located inside the cooler read 70 degrees Fahrenheit. The cooler itself had a digital thermometer on the back of the machine which read 20.8 degrees Celsius (equivalent to 69.44 degrees Fahrenheit).

While onsite, I interviewed Employee 1. He reported that he observed the temperature on the digital thermometer to be 26 degrees the day prior but didn't realize that the machine was set to Celsius and not Fahrenheit. Two additional thermometers were brought in to test the cooler temperature and both read temperatures were between 68-70 degrees Fahrenheit. Staff were unsure how long the cooler temperatures were elevated, and the facility could not provide evidence that the cooler was routinely inspected or that temperatures monitored.

<b>APPLICABLE RULE</b>	
<b>R 325.1976</b>	<b>Kitchen and dietary.</b>
	<b>(7) Perishable foods shall be stored at temperatures which will protect against spoilage.</b>
<b>ANALYSIS:</b>	The bistro cooler that houses resident food items was at roughly 70 degrees Fahrenheit, which is unsafe for perishable food items; the allegation is substantiated.
<b>CONCLUSION:</b>	<b>VIOLATION ESTABLISHED</b>

**IV. RECOMMENDATION**

Contingent upon completion of an acceptable corrective action plan, I recommend the status of the license remain unchanged.
