RE: License #:	AM250008208 Conquests AFC Clio 1 14271 Weir Road Clio, MI 48420
----------------	--

Dear Melissa Bentley:

Attached is the Renewal Licensing Study Report for the facility referenced above. The violations cited in the report require the submission of a written corrective action plan. The corrective action plan is due 15 days from the date of this letter and must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific dates for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the licensee or licensee designee or home for the aged, authorized representative and a date.

Upon receipt of an acceptable corrective plan, a regular license will be issued. If you fail to submit an acceptable corrective action plan, disciplinary action will result.

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, you may contact the local office at (517) 643-7960.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shamidah Wyden".

- Corrective action plan compliance verified? Yes CAP date/s and rule/s:
N/A
- Number of excluded employees followed-up? N/A
- Variances? Yes (please explain) No N/A

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This facility was found to be in non-compliance with the following rules:	
R 400.645	Environmental health.
	(3) A licensee shall provide hot and cold running water under pressure. A licensee shall maintain the hot water temperature for a resident's use at a range of 105 degrees Fahrenheit to 120 degrees Fahrenheit at the fixture.
At the time of inspection, the water temperature in the half-bathroom located off the kitchen area had a water temperature reading above 120 degrees Fahrenheit.	
This was corrected during the on-site inspection.	
R 400.645	Environmental health.
	(8) A habitable room must have direct outside ventilation by means of windows, louvers, air-conditioning, or mechanical ventilation. From April to November, each door, openable window, or other opening to the outside that is used for ventilation purposes must be supplied with a standard screen of not less than 16 mesh.
At the time of inspection, Resident A's bedroom window screen's screen was observed to have holes in the mesh.	
This was corrected during the on-site inspection.	
R 400.685	Resident admission; resident assessment plan; resident care agreement; health care appraisal.
	(10) A resident or resident's designated representative shall provide a written health care appraisal or a medical discharge summary by an appropriate health care professional that is completed within the 90-day period before admission. A written health care appraisal must be completed at least annually thereafter. If a written health care appraisal is not available at the time of an emergency admission, a licensee shall require that the appraisal be completed no later than 30 days after admission.
At the time of inspection, Resident B's current health care appraisal was dated over a year ago and had not been annually updated.	

IV. RECOMMENDATION

Contingent upon receipt of an acceptable corrective action plan, renewal of the license is recommended.
