IV. Description of Findings and Conclusions

On 10/15/26, I conducted an onsite inspection of Graham AFC LLC. I conducted a visual inspection of the facility and noted that on the main floor, there are three bedrooms that meet the criteria for wheelchair accessibility. There are two independent means of egress that lead directly to the outside of the facility. One of the exits leads to free and safe ground on the side of the house. This exit does not have steps, is barrier free, and is level with the walkway. The second exit leads off the other side of the house to the deck. The licensee has installed a wheelchair ramp off the back of the deck that leads to the backyard of the facility. I examined this wheelchair ramp and determined that it meets the criteria under R 400.647(10).

V. Recommendation

I recommend that this facility be approved as wheelchair accessible for residents who reside on the main floor.
