III. DESCRIPTION OF FINDINGS & CONCLUSIONS

The licensing inspection was completed under the authority of Public Act No. 218, as amended, and the Administrative Rules for Family Homes.

A. Physical Description of Facility

The facility is a modular-style home in northern, rural Muskegon County. The home is a one-story with no basement. The home contains three resident bedrooms, licensee bedroom, three bathrooms, a living room, program room, dining room, kitchen, laundry, and heat plant room.

Carol Dalson owns the facility.

The Muskegon County Health Department on 02/11/2004 granted approval for the water supply system and septic system.

This licensing consultant on 03/04/2004 granted fire safety approval.

B. Program Description

The licensee is a preschool teacher for Holton Public Schools. She also is the licensee for Wooley Lambs Day Care Center, which is on the adjacent property. OCAL staff indicate that the licensee has a positive licensing record.

The licensee proposes to accommodate developmentally disabled or elderly persons with significant health problems. The home is wheelchair accessible. Currently, the licensee is caring for her brother who is a 50-year-old wheelchair-bound, developmentally disabled man with mobility difficulties.

The licensee employs day shift staff while she works. At this point, the licensee provides evening care.

Based on observation and current documents, the licensee appears financially stable and capable.

Although this facility is licensed as a family home, it will basically operate as a small group home (1-6). The licensee has met the Small Group Home requirements.

Transportation to needed services and events will be provided by the licensee. In-home recreation and community recreation will be offered.

C. Rule/Statutory Violations

It is concluded that the licensee is in compliance with Public Act 218, as amended, and the Administrative Rules for Family Homes.

IV. RECOMMENDATION

I recommend issuance of a temporary license to this AFC adult family home (capacity 1-6).
