RE: Application #: AF670251586
Bridget Johnson AFC
20090 210th Ave
Tustin, MI 49688

Dear Mr. & Mrs. Johnson:

Attached is the Original Licensing Study Report for the above referenced facility. The study has determined substantial compliance with applicable licensing statutes and administrative rules. Therefore, a temporary license with a maximum capacity of 3 is issued effective 09/30/2002.

Please review the enclosed documentation for accuracy and feel free to contact me with any questions. In the event that I am not available, please feel free to contact Jack R. Failla, Area Manager, at (989) 773-6782.

Sincerely,

Diane L Stier, Licensing Consultant

09/30/2002	SC-Certification issued DD

III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

This home is a newly-built wood frame home with a walkout basement, located in a rural area near Tustin. The home is heated by a gas forced-air furnace and has an electric water heater, both located in the basement.

Residents will not use the basement. The main floor has two bedrooms for residents. The southwest bedroom measures 11.33' x 11.67' (132.2 sq. ft.) and is large enough for 2 residents. The southeast bedroom (11.0' x 11.33' = 124.6 sq. ft.) is licensable for 1 resident. The living room (17' x 18') provides 306 sq. ft. of living space for the residents; there is also 121' sq. ft. of space in the dining area. The licensees' bedroom is located in the northeast corner of the home, and contains a bathroom. There is an additional full bath located near the resident bedrooms. The home is connected to a two-car garage. Thus, the home has a capacity for 3 ambulatory residents.

The facility has a private well and septic system, which were newly installed in 1998. The facility meets all fire safety regulations, and has had a recent electrical inspection.

B. Program Description

The applicants have operated this facility for the preceding 4 years, with Mrs. Johnson being the sole licensee, and thus have experience with the administrative record-keeping requirements. Both Bridget and Paul David Johnson have completed CMH Direct Care Worker training. Acceptable medical clearances and TB tests are on file for both applicants and their responsible person, Barbara Johnson. Acceptable references are on file for both applicants, and Licensing Record Clearances for the applicants are on file with the department. Financial documents show evidence of financial stability and capability, and documentation for ownership of the home is on file.

The Bridget Johnson AFC will provide basic care for developmentally disabled adults. Residents may attend MOARC workshop on weekdays. The home will provide recreational activities in the home, and will also provide outings. The licensees will provide transportation to medical appointments and other activities, as needed. The home is in a rural area, with access to shopping, restaurants, recreation, library, hospital and churches in Cadillac (@ 13 miles).

C. Rule/Statutory Violations

This facility is in substantial compliance with all applicable rules

IV. RECOMMENDATION

I recommend issuance of a temporary license to this AFC family home (capacity 3).
