III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

The facility is located in suburban Walker, on a cul de sac of similarly constructed homes. The facility is one half of a raised ranch style duplex. The main floor consists of a living room, kitchen and dining area, two bedrooms, and a full bathroom. The lower, walk out level has a sitting area, one bedroom, a full bathroom, a furnace/hot water heater room, and a staff office.

B. Program Description

The licensees plan to work with women, ages 18 to older age. Populations identified are individuals with a mental illness and/or a developmental disability and the aged. The licensees have experience and applicable training for working with these populations. Admission and discharge criteria as well as a program statement outlining the program have been developed by the licensees. There are also house rules in place.

Transportation to and from appointments is not currently provided and the facility is more than half a mile from a city bus stop. Should it be available and the resident be eligible for Go!bus, the licensees will assist in scheduling this transportation.

C. Rule/Statutory Violations

The facility is in compliance with applicable rules and statutes for small adult foster care group home.

IV. RECOMMENDATION

I recommend issuance of a temporary license to this AFC adult small group home (capacity 6).
