RE: Application #: AF830279137  
SunShine Home  
116 Robert  
Manton, MI 49663

Dear Ms. Perkins/Crackel:

Attached is the Original Licensing Study Report for the above referenced facility. The study has determined substantial compliance with applicable licensing statutes and administrative rules. Therefore, a temporary license with a maximum capacity of 6 is issued.

Please review the enclosed documentation for accuracy and feel free to contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please feel free to contact the local office at (231) 922-5309.

Sincerely,

Terry Ibbotson, Licensing Consultant  
Office of Children and Adult Licensing

11/22/2005	Inspection Completed
12/02/2005	Document received
12/02/2005	Full compliance

## III. DESCRIPTION OF FINDINGS & CONCLUSIONS

### A. Physical Description of Facility

This is a two-story wood and vinyl sided home with a basement and attached garage, located on a residential street in Manton. Ms. Perkins/Crackel states that the original structure is over 100 years old and an addition, which is the proposed resident section of the home, was added about a year ago.

All resident bedrooms and the resident living area are on the main floor. Ms. Perkins/Crackel's grandmother also has a bedroom along the hallway that contains two of the resident bedrooms. The third resident bedroom is adjacent to the living area. The new section of the home also contains a full bathroom, salon, and an office. The office and/or the room currently occupied by Ms. Perkins/Crackel's grandmother could eventually be converted into resident bedrooms.

The licensee section of the home contains the kitchen, full bath, dining room, and living room. Ms. Perkins/Crackel and her husband's bedroom and bedrooms for their son and daughter, ages 13 and 12, are upstairs.

The basement has a natural-gas-fueled boiler (central heat plant) and 2 water heaters. The resident section is heated by a supplemental natural gas fireplace, which was installed with the new addition. All final inspection reports (building, electrical, plumbing, and mechanical) for the addition, indicating approvals, have been received and are in the licensing file. Resident bedrooms also have supplementary approved hard-wired electric wall unit heating.

A solid wood core door with a self-closing device is installed at the entrance to the basement.

The home has an interconnected smoke detection system, with detectors installed throughout the house.

The home is provided with public water and sewage systems.

### B. Program Description

As noted above and as required by licensing rules for AFC family homes, Ms. Perkins/Crackel and her husband reside in the home. Ms. Perkins/Crackel intends to admit elderly male and female residents.

Medical clearances with current TB test results and licensing record clearances have been received for Ms. Perkins/Crackel, her grandmother, and Mr. Crackel. The applicant has named a responsible person and has a shown proof of a current TB test for that person.

Ms. Perkins/Crackel states that she has several years of experience working with the elderly as a field staff for the council on aging. Mr. Crackel indicates he is self-employed as a builder.

Resident records requirements, including the handling of resident funds and valuables, were reviewed with Ms. Perkins/Crackel on 11-22-05 and she has indicated she understands those requirements. The responsibility under Act 59 to employ persons of good moral character and to obtain appropriate record clearances was explained to Ms. Perkins/Crackel and all necessary forms to comply with the Act were provided to her.

#### **IV. RECOMMENDATION**

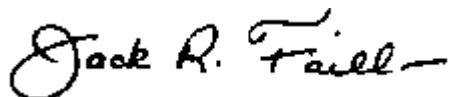

I recommend issuance of a temporary AFC Family Home license with a capacity of 3 elderly residents.
