II. Purpose of Addendum

On February 3, 2006 a request was received to increase the capacity of the home from three residents to five residents.

III. Methodology

2-11-2005	Original license issuance for three residents
8-3- 2005	Renewal license issued.
2-3, 2006	Request received to increase the capacity from three residents to five residents.
2-7-2006	Inspection completed on-site.
2-8-2006	Corrective action plan received and approved, floor plan received
2-9-2006	Capacity increased to five

IV. Description of Findings and Conclusions

On February 3, 2006 I received a request to increase the capacity of this home from three residents to five residents.

I conducted an on-site inspection on February 7, 2006.

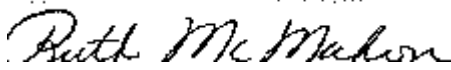

At that time, the East bedroom was measured. The bedroom measured 10'10" x 11'11" plus 1'2" x 7'7" equals 137.8sq feet which is sufficient to accommodate two residents.

The home has 469.1 square feet of indoor living space more than enough for five residents. I was informed by the administrator the home will no longer have a live-in staff as of February 7, 2006.

At the time of the inspection, the beds, mirror, dresser, and chair were not in the room, they were stored in the garage. The dining area contained seating for four, one additional seat is needed. A new evacuation plan was not posted to indicate the new bedroom. On February 7, a new floor plan with measurements was faxed. On February 8, 2006 a plan of correction was faxed, stating all the required furnishings were in the bedroom and in the dining are.

V Recommendation

I recommend increasing the capacity of this home from three residents to five residents effective February 9, 2006
