III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility:

The facility has been licensed as a home for the aged since 1995 under the name of Sunset Manor. The facility is a smoke-free single story building that was originally constructed approximately in 1978. The home has private and semi-private rooms that are tastefully furnished.

The facility was clean and some interior areas were recently painted. The dining room offers adequate space for residents to sit and enjoy nutritious meals and snacks prepared in the restaurant style kitchen. The menu offers diabetic and special diets as ordered by a health care professional. The lounge is spacious with a sizable color TV and adequate sitting space comfortably arranged.

Ms. Blashill is the authorized representative for Sunset Manor and Superior Health Support Systems. She said that the facility is developing plans to remodel and make

renovations in various stages. Ms. Blashill was reminded that before any major building modifications can occur, the facility must submit the plans for review and receive approval from the Health Facilities Engineering Section and the Office of Fire Safety.

B. Program Description

The facility currently has 32 residents with a capacity for 64 residents. Superior Health Support Systems has applied for a change of ownership license, and has submitted the required documents. Cavalier Healthcare Associates Inc, the licensee for Sunset Manor, has submitted written notification regarding the change of ownership in compliance with Rule 1913.

Superior Health Support Systems offers a safe and secure environment with 24-hour supervision provided for individuals over 60 years of age. The home advertises that the employees are dedicated and trained to assist the residents with activities of daily living.

Additional services provided by Superior Health Support Systems include medication management, blood pressure and blood sugar monitoring, and housekeeping services. The facility provides a bed, linens, and personal laundry services.

IV. RECOMMENDATION

I recommend that Superior Health Support Systems be issued a six-month temporary license with a maximum of 64 beds.
